Troop 12 Mothers

The regular monthly meeting of the Mothers Club of Scout Troop 12 was held at the home of Mrs. Frances Binner, 512 San Carlos Ave. on April 1 with Mrs. Fannie Wray acting as co-hostess.

Plans for the Mothers Club part in the Court of Honor were completed. William Wolfson, Scoutmaster, gave a report on troop activities and then introduced the new assistant Scoutmaster, William R. Thomas of 916 Ramona Ave.

A nominating committee to select names of candidates for office during the coming year was named. The next meeting will be held in the home of Mrs. Elena Diani.

924 Masonic Ave. on April 22. Mrs. Minnie Burgess will act as co-hostess.

Modernize for Increased Fire and Police
Protection to Your Family and Property

VOTE
YES

On Proposed

CHARTER AMENDMENTS

NUMBERS

1-2 & 3

FOR EFFICIENCY and PROGRESS

The recent growth of the City of Albany makes it imperative that both the Police and Fire Department make every effort to increase efficiency so as to furnish the citizen with the maximum of protection.

THIS IS MY PLEDGE

HOME PROTECTION

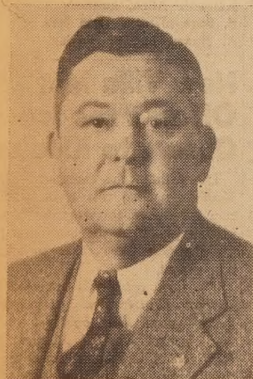

I will not sanction any change in zoning laws that will be detrimental to residential property values. . . . I will oppose the public utility wanting to erect a 365 ft. high gas tank in Albany.

FINANCES

As an expert accountant I do not vote any expense on the Taxpayer until I know where the money will come from and that the Taxpayers want the increase.

CIVIC BETTERMENT

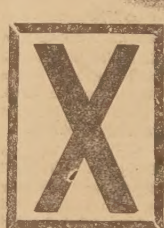

I favor expanding Park and Recreation facilities by a vote of the people soon. . . . I favor School expansion when needs are shown. I vote independently with the city's interest uppermost in my mind.

1. INCREASED EFFICIENCY in the Fire Department requires that the present position of maintenanceman be placed under Civil Service. Placing the Maintenanceman in the regularly constituted Fire Department will better coordinate diversified duties, supplying greater fire protection within the City of Albany without added cost.

2. THE INCREASE IN CRIME plus added traffic problems make it necessary that the position of Inspector be created in the regularly constituted Police Department. Handling of special cases and investigations require special training and adaptability, making the position of Inspector very necessary to the efficiency of the department. He would also act as coordinator among the various branches of the department. By providing the classification of patrolmen-clerks the Police Department will be able to secure men adaptable to clerical work as well as to other police duties. This will add greatly to the department's efficiency.

In arresting and transporting women while in custody, the law makes it compulsory for a policewoman to be in attendance. A policewoman-clerk will not only greatly benefit the department in performing switchboard and clerical duties, but will also provide a matron for taking women into custody, assisting at interviews with them, and in their transportation.

3. A RECENT ACTUARIAL SURVEY determined that on the basis of the present deduction of 4% from the salaries of the Civil Service members of the Police and Fire Department the present pension fund is inadequate. To make this fund more financially sound it is desirable that 6% instead of 4% be deducted.

POLITICAL ADVERTISEMENT POLITICAL ADVERTISEMENT POLITICAL ADVERTISEMENT

To the Citizens of Albany:

According to statements of the opposition "My campaign is being financed by a political machine; I am a Jew; a Communist; a crook who cheats people out of their money; I have been suspected as a spy during the last war and was constantly under the surveillance of the F.B.I. and am still watched by them . . . and so it goes on and on in a weird, fantastic manner. **WHAT IS THEIR GAME? WHY ARE THEY SPREADING SUCH MALICIOUS LIES ABOUT ME WITH THE INTENTION TO BESMEAR MY NAME?** Not being a politician and therefore not being used to political tactics, I wonder **WHY** they are doing it. They should know, that they can't frighten me, no matter what they do or say about me. **I CAN TAKE IT;** and surely the people in Albany won't believe such accusations. **Would I Have Dared to Be Constantly in the Public Eye, If I had a Shady Past? Why are they so vicious? What Will I Find in the City Hall should you elect me to the office of City Council? WHAT'S GOING ON IN ALBANY THAT WE, THE PEOPLE, SHOULD NOT KNOW?**

REMEMBER one of my campaign promises is **TO KEEP YOU FULLY INFORMED**

(a) as to the vital decisions that are made by the council and why they are made;

(b) how our tax money is being spent.

I have promised you that, as far as I am concerned, there will be no closed sessions prior to council meetings where problems vital to the citizens of Albany are aired and decisions are made.

I believe, since the citizens of Albany elect their representatives to office, the citizens should be permitted to voice an opinion on matters that interest them, and therefore, if you elect me to the office of City Council I will try to create a friendly atmosphere during meetings, **SO THAT WHENEVER CITIZENS COME TO COUNCIL MEETINGS, THEY WILL FEEL THAT THEY ARE WELCOME AND THEIR OPINIONS ARE VALUED AND RECEIVED OPEN MINDEDLY.**

In conclusion I wish to state that I am running for the office of City Council because I believe the women in our community should have representation on the City Council. **SINCE EVERY ACTION OF THE CITY COUNCIL AFFECTS THE HOME,** as a woman, I believe women should assume their share of the responsibility of City Government.

JUDGE ME BY MY PREVIOUS ACCOMPLISHMENTS AS A PUBLIC SPIRITED CITIZEN OF ALBANY which I have pointed out to you in the card I sent through the mail. Should you elect me to the office of City Council I will do my best to make you proud of me, because I love Albany and will always have our interests here at heart.

Albany Girl Awarded Borden Scholarship

Lois Elaine Isaac, 924 Adams St., Albany, has been awarded the \$300 Borden scholarship in home economics in the University of California College of Agriculture, it was announced recently by Dr. Agnes Fay Morgan, head of home economics department.

Chosen from 32 eligible seniors, Miss Isaac has a 2.34 grade point average. These marks are about halfway between an A and a B grade on all subjects. Miss Isaac will graduate this June with a major study in nutrition. She entered the University in October 1944 after graduating from Jordan high school, Sandy, Utah, in May.

Miss Isaac belongs to Omicron Nu, national home economics honorary society, and the University Home Economics Club.

Municipal Election Monday, Apr. 12th. It is your duty to vote.

Modernize Your Sleeping Room With Color

Too often some other room gets major attention when redecorating. How about your bedroom? Is it truly restful? Has it an harmonious color scheme?

Proper selection of colors can transform an outmoded bedroom into a pleasant, cheerful, happy room conducive to relaxation and rest. Why not rejuvenate your bedroom with color? Make it a room of which you can be proud and in which you can rest in perfect contentment.

We will be glad to assist you in choosing colors which will do something for your bedroom.

Marin PTA to Elect New Officers at Meeting on Tuesday

"Stepping Stones for Our Children" will be the topic for the April 13 meeting of the Marin Parent-Teacher Association. Meeting will start at 2:30 p. m. Mrs. George F. Klarmann, president, will preside.

Mrs. George Beanston, Jr., Parliamentarian for the California

Congress of Parents and Teachers will be the guest speaker.

Election of officers will take place at this meeting.

The program will be presented by the Marin School Orchestra conducted by Mrs. Jeannette Bruce.

Mothers of Second Grade students will be hostesses for the day. Mrs. Earl E. Petersen, Natural Museum Chairman and Robert G. Dennis, Legislation chairman, will be honored at this meeting.

Popular Albany Girl Tells Plans to Wed Fellow UC Student

At a recent informal gathering of fellow University of California students, the engagement of Joan May Lowe to Jack William Small was announced.

The wedding date has not been set.

Joan is a graduate of Cornell grammar school and Albany High School, and is now a Junior at the University. She is the daughter of Mrs. Lisle Lowe and the late Mr. Royal C. Lowe. She has a sister, Marilyn, attending Albany High School.

Jack is the grandson of the late Mr. and Mrs. Benjamin Small of Johnstown, Pa. He attended Girard College in Philadelphia and is now

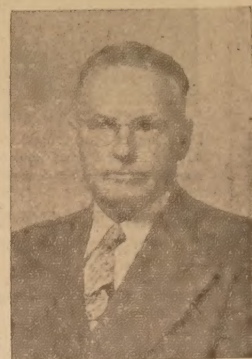

a student at San Francisco College, where he is majoring in education.

Audrey Hanahan, now a secretarial science at Albany College is secretary-treasurer of the Winter Sports Club. She initiated recently into Beta Delta sorority.

Audrey is the daughter of Mr. and Mrs. W. E. Hanahan.

Efficiency and economy in City government and taxation.

I will continue to seek:
Master plan for the future development of the City of Albany
Adequate street and off-street parking facilities
Adequate protection for our school children at all crossings
Ways and means of securing additional revenue for the City of Albany.

It is your right as a citizen to vote at the Albany Municipal Election,
MONDAY, APRIL 12th

Vote for **E. C. BLOW**—a man who has the time and experience to adequately serve you on the City Council without fear or favor.

"Talk about VALUE," says America
"CHEVROLET
and ONLY Chevrolet
IS FIRST!"

You'll find that new front-end styling—new colors—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You'll get much better performance with economy from Chevrolet's world's champion Valve-in-Head engine. It has the finest record of dependability of any automotive power plant! And Valve-in-Head engines are exclusive to Chevrolet and more expensive automobiles.

How much more smoothly and steadily Chevrolet rides on all types of roads! Here's real Big-Car comfort. It's the fine result of the Unitized Knee-Action Gliding Ride, and this feature, too, is found only on Chevrolet and higher-priced cars.

You'll find that new front-end styling—new colors—new and even more luxurious interiors add still further to the Big-Car beauty of Chevrolet's Bodies by Fisher. They're the world's finest bodies, found only on Chevrolet and higher-priced cars.

You and your family will have Big-Car safety, too. For Chevrolet brings you the three-fold protection of Fisher Unisteel body-construction, the Knee-Action Ride, and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and more costly cars.

Turn in Scrap Iron and Steel

Yes, from one end of the country to the other, public enthusiasm for the new 1948 Chevrolet points to a great public conviction that CHEVROLET AND ONLY CHEVROLET IS FIRST in all-round value as in popularity. More people drive Chevrolets, according to official nationwide registrations and more people want Chevrolets, according to seven independent nationwide surveys than any other make of car. You'll understand why when you see the newer, smarter, finer Chevrolet for '48. Your own judgment will tell you that it gives more value... that it alone offers U.S.-CAR QUALITY AT LOWEST COST!

As you know, public demand for new 1948 Chevrolets is at the highest level in all Chevrolet history. For that reason, we urge you to keep your present car in good running condition, pending delivery of your new Chevrolet. Come in, get skilled, dependable service, now and at regular intervals.

Homemaking Today
By Barbara Foote
P. G. and E. Home Economist, Oakland

Saving electricity means saving water in the present drought. By using less electricity now, you will help save water which can be used at the end of summer when the need will be even greater.

This is a challenge to California homemakers. A 20 per cent reduction in residential use has been ordered by the California Public Utilities Commission. Here are some suggestions which will enable you to cut your consumption 20 per cent or more without sacrificing essential lighting or services:

1. Keep all lights turned off in unoccupied rooms. When dinner is being served in the dining room, kitchen and living room lights should be turned off.
2. Check the basement, garage and porch lights. It's so easy to forget and let them burn hours when they are not needed.
3. Do not turn on lights used for decorative purposes only. To be sure they aren't used, remove the bulbs.
4. Use electric heaters only in an emergency.
5. Don't leave the radio on when no one is actually listening.
6. An electric iron, toaster, or waffle baker uses approximately 10 times as much current as a 100-watt lamp. Therefore, use these appliances sparingly. Ironing is essential, but some ironing could be eliminated. In fact, bath towels and wash

cloths are more absorbent if un-ironed. Sheets, carefully hung on the line, require having only the hems pressed. Plastic place mats, used instead of linen, do not require washing and ironing, and neither do paper napkins.

7. If you heat water electrically, do not waste hot water and do not use hot water if cold water will do.

8. If you cook electrically, make full use of your deep well cooker. A complete meal can be cooked in the well with the heat of only one unit. Oven meals require much less electricity than meals cooked on the surface units.

9. Defrost your refrigerator before the frost on the freezing unit becomes 1/4 inch thick. The frost acts as an insulation and the thicker it gets, the longer the motor must run to keep the temperature at a safe degree.

Saving electricity is very much like saving fat. The pound you are able to save in a month doesn't look like very much, but if every homemaker saved a pound a month it would amount to millions of pounds.

A 20 per cent residential saving in electricity in northern and central California would amount to over 820,000 kilowatt-hours each day, or 25,000,000 kilowatt-hours each month. This would save approximately 26 billion gallons of water a month for the parched farms of California.

Shasta Power
It is not being wasted now
It need never be wasted

You, as a user of electric power and as a taxpayer, have an important stake in the Shasta power question. In this message we outline what's behind the discussion—and offer the facts for all to read.

Additional Shasta Power Will Help. We have been and are doing all we can to correct the power shortage. Power from every possible source, in this drought year, must be distributed to northern and central California. Shasta is expected to provide about 75,000 additional kilowatts April 15, when a new generator comes into service. There'll be a like amount later on. Our total demands run about 2,000,000 kilowatts. Shasta will help—every bit of power counts—but Shasta power alone won't solve the problem.

Shasta Power Now Being Used. No Shasta power is going to waste now. It's being fed onto our lines and is being used along with power from about 75 other sources. It has been used since June 26, 1944, under a contract between P. G. and E. and the Bureau of Reclamation—a Federal government agency.

What's the Problem? Actually, there shouldn't be any problem... but there is. The Bureau doesn't want to extend the contract to cover the new Shasta power, even for the balance of this year. Instead, the Bureau has reluctantly agreed to put the additional power on our lines during the emergency on a day to day basis. We have agreed to take it that way—this assures no waste of Shasta Power during the emergency—but leaves the long-range disposition of the power unsettled.

Why Is There a Contract Dispute? It started back in 1941. When Shasta construction began we offered to supply a market for Shasta power and offered to coordinate our operations with those of the Bureau at Shasta and Keswick (another unit of the Central Valley Project). At that time the Bureau demanded that we "convey" Shasta power over our lines to enable them to sell it to various public agencies. It is not physically possible to do this, but in any event we couldn't agree to such a demand. These agencies were and are our customers and are being served under rates established or approved by the California Public Utilities Commission. Such a demand, were it carried out, would amount to virtual confiscation of a good part of our business. An agreement on our part would be just as foolish as for a milk company to agree to furnish their trucks and delivery men to someone else—who would begin delivering their own milk to the milk company's customers.

Wartime Contract Signed in 1943. Congress finally took a hand. In 1942 the Senate Appropriations Committee recommended that the Secretary of the Interior and P. G. and E. "immediately enter into a contract, for the duration of the war and a reasonable time thereafter".

The Bureau then agreed to a contract—without the "conveyance" clause. That contract was signed in 1943 and is still in force. It will be until the end of this year.

Under that contract the United States has collected from us more than 11 million dollars for Shasta power. But the contract is running out—a permanent contract should take its place.

Bureau Won't Agree. The Bureau has gone back to its original demand, first laid down in 1941. P. G. and E., they insist, must "convey" power for them for delivery to a long list of federal, state and local agencies, now P. G. and E. customers.

Practically all the other points in a new contract are agreeable to both parties. But with this one we disagree.

Bureau's Demand Puts Burden on Public. Last year the customers which the Bureau could take from us used more than a billion kilowatt hours of power. That's about one-eighth of our total power demand. Here's what that means to you:

Under the direction of the Public Utilities Commission, our low rates have been carefully adjusted to cover costs of a complex system of generating and distributing power... to all the people in our area. Should special privileges—at the expense of the taxpayers—be granted to those who use one-eighth of our power, the others who use the seven-eighths would naturally have to make up the difference. We don't want the public to be thus penalized.

How to Solve the Long-Range Problem Since Shasta began to produce we've been buying power and paying for it. Our point is this: all northern and central California should share in Shasta power—not a few selected agencies or customers. It can be made available to the homes, farms and factories in the area. Fair terms have been offered by the P. G. and E. If there is a dispute as to price, we will submit it to the California Public Utilities Commission or to the Federal Power Commission and abide by the decision, although in 1943 Harold L. Ickes, then Secretary of the Interior, said we had agreed to pay a "fair and equitable price for the power".

Transmission Lines Available. P. G. and E. transmission lines are ready at our Shasta substation to take the output of the generators to come into service this month and in July. Before another month passes we will have still another transmission line south from Shasta substation. With that line in operation all the power to be produced at Shasta and Keswick Dams can be distributed over northern and central California.

All the government need do is build its transmission lines to Shasta substation—25 miles. It has the money to do that, appropriated by Congress last year. The Bureau of Reclamation and the Federal taxpayer, whose money it spends, need do no more.

We have the service organization, the substations and all the necessary lines to get the power to the public.

P. G. and E.
PACIFIC GAS AND ELECTRIC COMPANY

OPEN LETTER TO MRS. KATHIE ZAHN:

Why did you try to mislead the citizens of Albany in your political ad appearing in the Albany Times, dated April 2, 1948?

As to the expenditures of City Funds, do you know that these records are public and are and have been available to the general public at the City Hall for many years? Don't you think as a candidate that you should know this?

Do you know that the tax rate in Albany has been raised only 13 cents since 1942 while the population has increased from 11,493 to approximately 20,000 to date? Don't you think that this is an excellent record compared to other Bay Area Cities for the same period of time?

Why do you try to discredit the administrators and department heads by the implication in your ad that the taxpayers are not getting full value received for their money? Do you know that the City employees have brought thousands of dollars of revenue to our City through Federal and State aid through their efforts during the war years making it possible to keep the taxes down in spite of the inflated cost of operation to our City Government?

How do you expect to efficiently manage our City finances, if elected?

Did you not already go through bankruptcy managing your own family budget?

Warn Home Owners Against 'Phonies' Selling Fertilizer

The Bureau of Chemistry, California Department of Agriculture, today issued a warning to prospective purchasers of "fertilizer," manure or peat, such as might be applied in the spring to freshen up lawns or gardens. One purchaser paid \$127 for lawn material not worth more than \$3.

A gang misrepresenting garden fertilizers has been operating in the southern part of the State, Allen B. Lemmon, Chief of the Bureau of Chemistry stated. The men are part of a well-organized ring being investigated by the Department for the past four or five months.

"This isn't petty larceny," Lemmon explained. "They are well-organized and are making big money selling the stuff."

Not all itinerant fertilizer peddlers are engaging in fraud, Lemmon emphasized, but he added the Bureau has received so many complaints from several parts of the state that the warning is justified. Most of the complaints come from irritated housewives who purchase materials from door-to-door vendors only to find too late that they have paid at a high rate for mixtures of sawdust, shavings, gravel or just plain soil.

Not only does the "phony" mixture add nothing of value to the lawn or garden, Lemmon said, but the stones in the gravel are also a constant menace to lawn mowers.

Municipal Election Monday, Apr. 12th. It is your duty to vote.

SATISFIER—Indiana-born Helen Carroll was brought up in Memphis, but dropped that Southern accent when she joined the Satisfiers, vocal group with the NBC "Supper Club."
